## Part 2/4: Course selection

At Discover, you will participate in two courses. In this section, you will choose four that interest you the most and rank them according to your preference: the first one is the one you are most interested in (No. 1). Most students will be placed in their first and second choice courses, but unfortunately, this is not possible for everyone.

You can find descriptions of the courses [here](#).

## Part 3/4: Questions for evaluation

The following questions are designed to help us learn more about your motivation for applying to Discover and to better understand the way you think.

### Question 1:

→ **What motivates you to apply for Discover 2025?**

*We are interested in why you are applying to Discover, what you expect from it, and how you think Discover can be beneficial for you. There are no wrong answers! (min. 95 words and max. 200 words)*

### Question 2 (choose one from the list):

→ **What is a skill or talent you wish you had, and how would you use it?**

→ **What is a moment in history you wish you could have witnessed? What would you do there?**

→ **Describe a time when you changed your mind about something important. What caused the shift?**

→ **If you could have a conversation with your future self 10 years from now, what's the first thing you'd ask? And why?**

*We already know your motivation; now we want to get to know you a bit more. Please choose one personal question from the list and answer it. (min. 80 words and max. 200 words)*

### Question 3

→ **Why did you choose these particular courses?**

*We are interested in whether you have thought about your choice, why you are interested in the course you selected, and what played a role in your decision-making. You don't need to have won school competitions in this area, nor does it have to be your dream career. Discover is about learning new things, and we just want to see that you have enthusiasm for the topic.*

## Part 4/4: Personal details and fee

This is the last step before submitting your application! In this section, we will ask you to fill in your personal details and choose the amount you will pay after we accept you. This section will not affect your chances of being admitted. However, if you are applying for a scholarship, some of the information from this section may be considered when deciding on the award or amount of the scholarship (you can find the scholarship guidelines [here](#)).

**So let's go on to the application!**

**Good luck!**
